pavillio
A PRODUCT OF CASHÉ SOFTWARE

Digitizing Community Services

Connected care at your fingertips

Empower care recipients to self serve – without overhauling state systems. Imagine: an app that allows residents to self-direct services while at the same time empowering the county to deploy more services more efficiently and manage them easily without delays? That future is here.
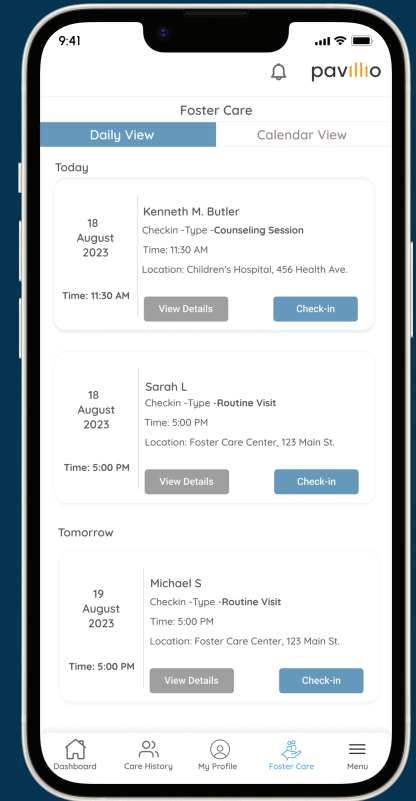

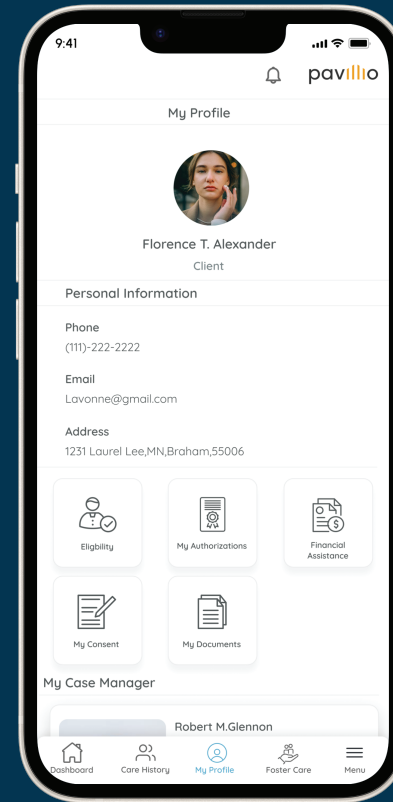

Benefits for counties

- ✓ Serve more residents despite fewer resources
- ✓ Less manual paperwork
- ✓ The App is 'open' even when your office is closed

Benefits for residents

- ✓ Real-time benefit information at their fingertips
- ✓ One tool for all county communications
- ✓ Easy access to case manager

A PRODUCT OF CASHÉ SOFTWARE

One app for all.

What can residents do with the Pavillio Mobile App

- ✓ Know their Medicaid eligibility status
- ✓ Find service providers
- ✓ Monitor service agreements and balances
- ✓ Manage schedules and appointments, such as foster care
- ✓ Digitally complete county forms
- ✓ Collections

Innovate, manage and deliver services with confidence

Help your community get and manage the care they need – NOW. The pandemic fundamentally changed expectations for digital accessibility while at the same time **counties are expected to do more with less** – and with much of the same legacy systems. With Pavillio, Minnesota counties can more effectively meet both needs: putting Human Service organizations at the forefront of driving transformation while also delivering a self-service option that fits within existing systems. Are you ready to make a change?
